DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: On page 3, line 7, "absorbtion" should be --absorption--. On page 4, line 5, "spong" should --sponge--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Casey '497.

See last sentence of the abstract, col. 3, lines 4-14, and 48-63 and col. 4, lines 31-37, i.e. '497 teaches a bioabsorbable hydrophilic surgical sponge operable for the intraoperative absorbtion of blood from within an open surgical site within a patient comprising a porous body consisting of a bioabsorbable material which material is a polymer of glycolide, i.e. PGA is a homopolymer of glycolide.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The other patents also teach bioabsorbable surgical devices.
